

To Preferred Plumbing,

I want to thank you for the excellent job you did at my house in the month of October. My wife and I knew we had to change the house plumbing to the attic from the cement slab but the thought of such a project made us keep putting it off.

Your men worked very professionally and neatly. I had visions of walls ripped apart and the house never being the same. But your men knew exactly where to make a cut here and run a pipe there. They laid plastic on the carpet where they walked and each night when they left, they swept up their work area.

Our thanks to Ronnie and Alex for their concerns about pleasing us with their work habits. They took pride in what they were doing as did the other men who started the job. We are pleased with the outcome of the project and would recommend Preferred Plumbing with no hesitation.

Thank you,

Don Van Sickle
